

# Wizard X4 Productivity Suite Package Comparison

All accounting solutions packages utilizing the Wizard X4 Productivity Suite include a comprehensive pre-purchase process to familiarize you with our products, services, and way of doing business. This process includes three major steps:

- Establish price upfront
- Establish our ability to provide the right tailored accounting software solution by assessing your needs, discussing key requirements, and offering educational support. Determine if Microsoft Dynamics GP's robust accounting services meet your requirements. Learn more about Wizard X4 Productivity Suite's comprehensive scope, implementation procedures and range of available support and training
- Establish confidence that this project will go smoothly because we provide local reseller assistance, responsive phone and email support, and a documentable track record
